Auger-Fed Granulators

Application:

Cumberland's Auger-Fed Granulators are fully portable and automatic, with a small footprint. They are designed for continuous, heavy-duty applications, such as runners, sprues, blow-molded scrap, small thin wall parts, and pre-cut thermoformed web.

Features:

Table with 5 columns: Model, Throat Size, Cutting Circle Diameter, Throughput, Approximate Weight. Rows include models 6 x 8, 8 x 12, and 12 x 16.

Benefits:

- 3 slanted rotor knives and 2 counter-slanted bed knives create a unique shearing action... Reversing flight of the continuous welded auger screw prevents annoying wrap... Oversized auger and infeed openings can be customized to suit your application.

Specifications:

Table with 3 columns: Specification Category, Standard, Standard Options. Rows include Infeed, Cutting Chamber, Rotor, Rotor Knives, Bed Knives, Screen, Base, Discharge, Motor, Drive Parts, Electrical Components, Controls, Labels, Accessories.
